

METTLER TOLEDO Comes Out on Top in *Control Design's* Reader's Choice Awards

The results are in! The third annual Control Design Reader's Choice Awards will be published in the November issue of Control Design. For the third year in a row, METTLER TOLEDO is the recognized leader in the 'Weighing Systems/Load Cells' (22%) category, edging out two competitors, Hardy Instruments (9%) and BLH (8%).

More information on the Control Design's 2003 Reader's Choice Awards feature articles can be found at <http://www.controldesign.com>. We would like to thank our loyal customers for their support and enthusiasm!
